

How it works:

Here are some of the things I need to know in order to match you to the perfect dog. If you can tell me the answers to the preferences below, and how important to you those preferences are, it would help me get you a better price quote! You can print it and email it back to me or send it filled in back to me over your smart phone, via photo text.

Name: _____

Your Address: _____

Email / Phone: _____

1. What are you planning on using him for? Your choice (A or B)? _____

A. You want a **Therapy dog** if you plan on taking your dog to visit hospitals, schools and spread good cheer. These dogs are NOT given free access to all public stores, buildings, etc. but are invited in, usually after joining a group such as “Therapy Oddslot Dog International.”

B. You want an **Emotional Assistance dog, PTSD or a Psychiatric Service Dog** if you would like a dog to help YOU.

*******What’s the difference between an ESA and Psychiatric Service dog?** If you have a mental handicap that limits your ability to live a normal life, *and* are under the care of a doctor or psychologist, *and* they have recommended you try a service dog to help you with your condition, *and* you want this dog ***to be able to go with you everywhere***, you are looking for a service dog. These dogs have *much more* time and training out in the world than the ESA dog, and they come with more training for YOU! Please do not purchase an ESA or Therapy Dog if what you are really interested in is a Service Dog! They will most likely disappoint you! To understand the differences better, please see my website for more details.*****

2. Energy: Your Choice: (More or Less)? _____

What is your day like? Do you like to hike? Walk on the beach? Go jogging? You would be best with a more active breed! Do you spend little time out exercising and really want someone to cuddle on the couch with? A lower activity dog would be right for you. Keep in mind that ALL dogs will need SOME exercise and a daily outing, it’s just the amount of it that differs greatly between breeds.

Please give me a run down of a typical “day in the life” of you: _____

3. Travel: Your choice (Pickup or Drop Off) ?: _____

You need to decide weather to pick up the dog here, or I bring him/ her to you. Remember, even if you were buying a car, if you didn't know how to drive it, you won't get very far. It takes teamwork to get the most out of your new companion and really bond. Typically I say about 3 weeks! If you are out of state, and plan to fly with real time football results your new family member, it may be best to consider having me come to you! Managing the craziness of airports is difficult enough, add a dog you just met, (who has never FLOWN before), and the stress can be too much!

Unless there is an unusual circumstance, I almost always take service dogs to YOU. Therapy and ESA dogs, you can make that choice.

Once I have this information, I can give you a more accurate price/time quote!

If you decide to move forward, you will need to send in a deposit to hold the dog, and I will give you a receipt and get started page.
